The Nubal Cassette system is perfect for those applications when panels may touch but not slide over each other and is suitable for both rigid and multilayer laminates. Typical uses are following pre-lamination cleaning, between exposure and Mylar removal, following tin stripping, etc. The important conditions are that panels are perfectly dry and not susceptible to moderate pressure. Available both as feeder and stacker and with 2 sizes of latching trolley and cassette storage stations. A major benefit is the compactness of the panel stack, with a typical cassette load of 120 1,6 mm panels.

- Weight – 150 kgs
- Height – Nominal 900 mm (adjustable)
- Width – 1150 mm
- Length – 1220 mm – 1380 mm
- Supply – Single phase 50/60 Hz
- Air – 5 bar
- Speed – Variable 0 – 4 m/min
