The *E-3000 Series* is the new, high quality, high technology handling system from Nubal. Built without compromise, the range includes a compact flat feeder with a unique shuttle action table particularly suitable for the protection of delicate and thin materials, which is available with or without integral tacky roll cleaner and in both tray and cart feeding versions. A similarly specified collector is also available as are additional carts and trays.

All models are PLC controlled, have traffic light status displays and are finished in RAL 7032 as standard although others colours can be had to special order. Standard maximum panel size is 685 mm x 610 mm with other sizes available on request.

- Weight – approx. 250 kgs
- Working height – Nominal 900 mm (adjustable)
- Width – 1260 mm
- Length – Feeder with tacky roll cleaner – 1260 mm
- Length – Collector and feeder without tacky roll cleaner – 970 mm
- Supply – Single phase 50/60 Hz
- Air – 5 bar minimum
- Speed – Variable 0 – 4 m/min
