INTERFEED

One of the extensive range of Muscat products for the printed circuit board industry

An aesthetically pleasing range designed to make the manufacturing process easier, reduce and simplify maintenance and greatly improve productivity

“It is our belief that the interests of both board and equipment producers are best served by establishing technology partnerships”

The INTERFEED is one of our most popular models. Feeding is carried out reliably from a horizontal stack, panels being picked up on the leading edge by locatable vacuum cups and introduced to a pair of driven rollers, angled to minimise panel scuffing. The small footprint required to collect full 610mm square panels makes it easily accommodated in board shops of all sizes. Options available include air cushion, backstop, auto table return and versions to take 760mm wide panels. Long panel versions are available to special order. Standard and function conveyors can be added as well as interfacing with other equipment.

- Weight – 75 kgs
- Pass Height – Nominal 900 mm (adjustable)
- Width – 1020 mm
- Length – 780 mm
- Electrical supply – Single phase 50/60 Hz
- Air supply – 70psi (5.4 bar)
- Speed – Variable 0 – 5 m/min
- Maximum panel size – 610 x 610 mm
