The INTERSTACK is one of our most popular models. Collecting is carried out on to a horizontal stack reliably and with minimal panel scuffing, due to the angled roller arrangement. The small footprint required to collect full 610mm square panels makes it an easy addition to board shops of all sizes. Options available include air cushion, backstop, auto table return and versions to take 760mm wide panels. Long panel versions are available to special order, Standard and function conveyors can be added as well as machine-full alarms and interfacing with other equipment.

- Weight – 65 kgs
- Pass Height – Nominal 900 mm (adjustable)
- Width – 1020 mm
- Length – 655 mm
- Electrical supply – Single phase 50/60 Hz
- Speed – Variable 0 – 5 m/min
- Maximum panel size – 610 x 610 mm
