The *E-3000 Series* is the new, high quality, high technology handling system from Nubal. Built without compromise, the range includes the interleaf remover pictured above. This is designed to go in line with an E-3000 feeder and to sense interleaves, diverting them into a collection tray positioned below.

A tray full alarm is fitted as standard.

As is the rest of the range, this model is PLC controlled and is finished in RAL 7032 as standard although others colours can be had to special order.

- Weight – 250 kgs
- Working height – Nominal 900 mm (adjustable)
- Width – 1262 mm
- Length – 819 mm
- Supply – Single phase 50/60 Hz
