The E-3000 Series is the new, high quality, high technology handling system. Built without compromise, the range includes the interleaf inserter pictured above. This is designed to go in line with an E-3000 stacker and to feed interleaves between panels, drawing them from a supply tray positioned below.

A tray empty alarm is fitted as standard.

As is the rest of the range, this model is PLC controlled and is finished in RAL 7032 as standard although others colours can be had to special order.

- Weight – 250 kgs
- Working height – Nominal 900 mm (adjustable)
- Width – 1262 mm
- Length – 819 mm
- Supply – Single phase 50/60 Hz
- Air – 5 bar minimum
- Speed – Variable 0 – 4 m/min
